Three thousand men and women in the heademy of Music in Brooklyn last night almost spent themselves in cheering heae words from Rabbi Stephen S. Wise. Then Mayor Mitchel got up and Brooklyn found that it was not exhausted
after all, for the shouting and handplapping provoked by his appearance
and constantly interrupting his summary
of five weeks campaigning were as ardent
and spontaneous as if it were the first
political rally of the sesson instead of
fusion's last big one.

"Part of New Tork believed that I was seeking to raise an issue that I was foreign to the municipal campaign on which to lift myself and my administration into office. But to-day few York realises that this issue in reality is here, that it must be met, that it cannot be brushed aside by words.

"All of New York knows to-night that Judge Hylan is a man without competence, without capacity, without personal character, without the courage of an ordinary jackrabbit. [Applause.] The man who bows his knee to the dictates of his boss and permits himself to be mussled in a campaign like this, not daring to meet ah issue or look an audience in the eye, is hardly the man be lead New York when the country is at war."

Waving back the cheers, the Mayor turned to Mr. Hillquit. "Mr. Hillquit," he said. "is the candidate of pacifiers and hostruction. He declares himself frankly, straightforwardly, opposed to everything our nation represents in this war. I would rather, if I had to choose—as fortunately New York has not to choose—the man who professing patriotism, by its associations, his undertakings, his against me, against the country, than the man who, professing patriotism, by its associations, his undertakings, his activities, is seeking to stab his country in the back by promoting sedition and disloyalty."

"HERALD" POLL FAVORS HYLAN traw Vote Indicates He Is Well

in the Lead.

The New York Heroid prints this morning the final results of its straw vote on the Mayoralty election. Out of 53,200 votes polled throughout the city and representing practically all sec-tions Judge John F. Hylan, the Demo-cratic candidate, leads with 22,316, or 42 per cent. of the total; Mayor John Purroy Mitchel, the fusion candidate, is Purroy Mitchel, the fusion candidate, is next with 13,751, or 26 per cent. of the total: Morris Hillquit, the Socialist candidate, is third with 11,406, or 21 per cent. of the total, and William M. Bennett. Republican candidate, is last with 5,727, or 11 per cent. of the total. Tables presented by the Herald and compiled from the straw vote as polled during the three weeks preceding the election show that recently there has been a decided swing to Mayor Mitchel, although Judge Hylan remains well in the lead. During the final week Mayor Mitchel gained 4 per cent. of the total vote.

WESTCHESTER TORN BY POLITICAL FIGHT

The most exciting campaign in the distory of Westchester county is new being fought out in Yonkers, Mount Vernon and White Plains for control of the municipal offices. In these cities the Remunicipal offices. In these cities the Republicans are trying to wrest the central
from the Democrats, while in New Rochelle the Democrats are trying to best
Mayor Edward Stetson Griffing, who is
seeking reelection on the Republican
ticket. His Democratic opponent is Frederick H. Waldorf, while Charles H. Noxon, a lawyer, is trying to beat out both nominees by running on an inde-pendent ticket with a soldier as his emlem. The Socialists of New Ro have nominated Herman Kobbe as their choice for the Mayoralty and expect to iraw a big vote.
Friends of Mayor Griffing believe he

ill win because of the split of a certain of the Democratic party.

People Are Pleased.

More potent than anything else is the way Mayor Griffing's "pay as you so" policy is taking hold of the people. For the first time in the history of that city an administration has called a halt in the piling up of the city's debt, and it has greatly reduced this debt in contrast to the Waldorf administration of four years ago, which increased it more than a quarter of a million dellars. Finally there is the fact that New Ro-chelle is a city of homes and its residents do not approve of Mr. Waldorfs open advocacy of advertising the city and

turning it into a manufacturing tows.

The hottest political fight in the whole county, however, is taking place in Mount Vernon, where Mayor Edwin W. Fiske is seeking reelection for the eighth term on the Democratic visits. The public knows the facts, and knowing them it will not permit New York
to be shamed and humiliated, as Chicago
to has been shamed, by a Mayor who
to thinks more of the Kaiser than he does
of America.

In Yonkers the Republican machine is trying to overturn the Democratic ad-ministration of Mayor James T. Lennon by having its candidate, William J Wallin, make a whirlwind campaign throughout the city. In White Plains Mayor Farrington M. Thompson is a candidate for reslection on the Democratic ticket, while his Republican opponent is William J. Welse.

Large Soldier Vote.

It is generally believed that the vote of the soldiers will have considerable effect on the result of the election. More than 6,000 young men from Westchester

that all Republican candidates for county offices will be elected by hand-some pluralities. Charles E. Nessiter the present Under Sheriff, who is running for Sheriff against William J. Doyle, a former Republican but now the candidate of the Democratic party, expects to carry the county by about 10,000 pjurality. Mr. Doyle was elected Sheriff on the Republican ticket a few years ago and when he failed to get the

Republican organisation to stand for him he accepted the Democratic indorse-ment of his independent ticket. The Supreme Court threw out his in-dependent ticket because it was found that in violation of the election law enrolled Democrats had signed the in-dependent petition.

Bennett Not to Retire.

William M. Bennett asserted last night that he had been informed that Fusion street speakers are announcing that he is going to retire in favor of Mr. Mitchel. The Republican candidate sent a letter to the various newspapers stating that this was "absolutely false" and that he had no intention of getting out

"Mr. Bennett's manager could not give me the name of the speaker or orders had been issued, and I persondo not expect Mr. Bennett to get out do not expect Mr. Hennett to get out of the race, in fact, we want him to stay in. He will get only the votes that would not have gone to Mitchel anyway and his being in the race will have no effect whateover on the final result."

Votes as American and Not as Politician. Asserts Rev. Schulman.

"Men are playing with fire when they drag the name of the Jew into politics was the warning delivered by Rabbi Samuel Schulman in a sermon at Temple Beth-El yesterday morning. He denounced extractly those politicians and political speakers that have sought t array the Jews as a voting class against or for certain candidates. His thems was that the Jews are good Americans and that it was an outrage to seek to embitter them against any individual of to allen them for any individual

"It is necessary to say that men a playing with fire when they drag the name of the Jew into politics, said Rabbi Schulman. "Certainly men of Jawish faith take part in politics, bone of them with distinction, but you will notice that they seldom address them selves as Jews to Jews in a political contest. Whatever influence their names can legitimately exert they will naturally exert by addressing themselves to their fellow citizens. That is the only sane and wise method. A Jew is a Jew is religion only. In political matters he thinks and votes as an American only

"I do not know of any such analysi being made of the German, Irish Italia or Protestant vote. There is no such or Protestant vote. There is no such thing as a Jewish vote. Jews divide on all political questions like any other element of the voting population. It is a criminal error for any politician to say how any portion of Jewish voters will vote and to attempt to make it annear that Jews as Jews hold the balance of the land of the la power in this city. 101,374 AUTOMOBILES IN NEW YORK CITY

MORE than 166,000 gallons of gasoline are used every day by the 101,374 automobiles—passenger cars and trucks -operated in New York City.

With consumption so great, the percentage of low-grade fuel sold is not surprising.

Small wonder, too, that such a condition turns wise motorists to the use of Tydol.

These motorists call Tydol "the new economy gasoline" because it vaporizes fast.

Tydol works best in a lean carburetor mixture—15 parts air to 1 part fuel. The use of such a mixture means a tremendous saving in fuel. Yet Tydol costs no more than sluggish gasoline.

Ask any Tydol dealer to show you how to set your carburetor to get the best mixture for your car. You will be pleasantly surprised at the result.

To reduce friction and wear, use I redol, the automobile lubricans that resists heat. Reduces sediment by 80% and increases power and gasoline mileage.
